In April 2007, City Council authorized a month-to-month contract with Push-Up Foundations, Inc. for homeless services. The contract expires July 31, 2007. In addition, this action authorized Health and Human Services Department to identify other potential providers and issue a solicitation to continue these services. Caritas of Austin is recommended to provide homeless men's transitional services as a result of this solicitation. Caritas has experience providing transitional housing and comprehensive case management to homeless and chronically homeless.

Caritas' "Make your Path, Leave Addiction and Choose Excellence" (MyPlace) will provide transitional housing and substance abuse counseling for thirty homeless adult men using the Oxford House group housing recovery model. MyPlace will provide twenty beds for homeless men at scattered sites through the community. The average length of stay in the program will be approximately eight months, but the actual length of stay will depend on the client's specific needs. MyPlace addresses the most important goals of this solicitation, to expand comprehensive services for transitional housing and substance abuse treatment in a safe, secure, and drug-free environment for homeless and chronically homeless individuals.

At least 25% of program clients will fit the HUD definition of chronically homeless. In addition to Caritas, partners providing comprehensive long-term case management to clients in the program include: Salvation Army, Goodwill, AIDS Services of Austin, and Front Steps.

Caritas will provide substance abuse treatment services through a subcontract with a licensed substance abuse provider (ABLE.) All clients will participate in substance abuse treatment weekly, including individual and group counseling. Substance abuse services will be provided on site and at the treatment provider's offices.

Caritas will be provided \$15,000 in one-time funding to purchase necessary household items (refrigerators, furnishings, etc.) and provide direct financial assistance to support the client's movement from transitional housing into permanent housing. Performance Measures:

Output:

Number of unduplicated clients who will be provided transitional housing

30

Number of beds in the transitional housing program 20

Number of clients entering substance abuse treatment 30 Outcome:
